

## What advice would you give about your first week?

There is lot do do in your first week so it helps to be organised. I have to leave home a lot earlier than in primary school so I pack my bag and clean my shoes the night before. I practised getting the train and working out the route I had to cycle during the summer holidays. If you are going to cycle there is a form you have to fill in and you have to wear a helmet. If you arrive by bike you enter the school by the back gate, where the bike racks are. The bike racks are always busy but you can usually find a space. I leave my helmet with my bike, locked to the bike rack, but you could put it in your locker. Everyone gets a locker and you can store your PE kit and coat in it. You are given a key for your locker and you have to keep it safe. A new key costs £7! The lockers are sometimes quite a long way from your tutor room, so you have to allow enough time for that..

**William 7 Ridgeway**

Make a lot of friends, get on the good side of teachers and try to learn your way around but don't worry because there are lots of people to help. The first few weeks you are escorted to lessons

**Finn 7 Andrewes**

Stay calm and don't worry.

**Georgia 7 King**

Some advice I would give is to be yourself, do all the work set and you should be fine.

**Aoife 7 Burrows**

Some advice I would give is to be yourself, do all the work set and you should be fine.

**Holly 7 Otter**

Enjoy your first week at school and make loads of friends and then you will have a great time..

**Olivia 7 Sherborne**
