

I was wondering if we can still see our friends even if they're on the other side of the school.

Yes it doesn't really matter if your friends are on the other side of school you can still see them at lunch and break times.

Poppy 7 Story

Yes I still find time to see my friends at lunchtime and even though they are on the other side of the school the only thing we can't do together is lessons.

Anna 7 Ridgeway

If your friends are the other side of the school you wont see them for that lesson but you might cross in the corridor when you are walking to your next lesson. You will also be able to see them at break and lunch.

Holly 7 Otter

Yes at lunch and break you can hang out with them all you like although they will not be in lessons with you so it is still good to make new friends in your class.

Ellie 7 Wilson

Do you enjoy the canteen food?

The canteen food is really good and there is lots to choose from.

Olivia 7 Sherborne

Yes. I think everyone does as the food is not the same everyday.

Myah 7 Sherborne

The canteen food is nice and I think it is better than Primary. You get more choice and can have things like paninis and bagels. They even have fizzy drinks and biscuits

William 7 Ridgeway
