

Did you find it worrying when you first started? What were you afraid of?

I found it very worrying when I first started but I quickly realised that Bishop Luffa is an incredible school and very pleasant. I was most afraid of having no friends but luckily my sister (a year above me) had a friend who had a younger sister who was joining too! We hadn't met before, but we ended up sitting on the same table!! I soon made lots of friends that I know will be with me for a long time.

I overcame my problems by knowing that everything was going to be okay. I already knew what a fabulous school Bishop Luffa is from talking to my sister. I am very fortunate to have a sister that already goes there. She helped me overcome my fears the most. I highly recommend talking to someone e.g. friend,

sibling, parent / carer

I was slightly nervous on my first day but it was really good because everyone in my class was really nice and I'm sure yours will be too. I was mainly afraid of not making friends but you make them really quickly and soon become good friends with everyone in your class.

Poppy 7 Story

I did find it quiet worrying when I first started but as I became more settled I became more confident. I was afraid that I was going to be late for school and late for classes but I never was. I overcame my problems by talking to teachers, my friends and my family.

Yes, you have to have a huge amount of self confidence not to worry but after the first week you'll have fit in and find friends. I talked to people and tried their ideas, I know lots of people say that and don't get me wrong it's not easy but in the end it's worth a try and you might make a new friend in the process.

I didn't find it worrying because when you start you have 2 weeks where you can't get a detention for being late or anything like that.
