

When you started Bishop Luffa how long did it take you to find your way around the school by yourself?

It took a week to find my way around the school but there is nothing you need to worry about.

it took me around 1-2 weeks to find my way around all of the school by myself but luckily I have 5 amazing friends and we all go around school together. If you are lost you have a map of the school in the back of your pupil planner that you can follow. If you have lost that then you can go to student services and ask where you need to be and where is the classroom.

Even though my mum teaches here I still didn't know my way round for a couple of weeks and it's fine if you ask a member of staff they will point you in the right direction as well a member of staff will make sure that you get to class for the first 3 weeks or so.

Everyone may tell you this but after about a week or two it just clicks!! You will be escorted to your classes by your teachers for a week until you know your way. You will remember where your classes are and you know the school! Even if you do loose your way teachers and students are really nice about these things!!

It is surprising how quickly you find your way around!!

For me I took quite a lot longer than my friends to be able to find my way round by myself! About 5 weeks!!!
