

How was the amount of work / homework compared to Junior School?

At the start of term the work was about the same but it gradually builds up to about triple the amount. Try and get homework done as soon as it is set otherwise you can find it a bit overwhelming.

William 7 Ridgeway

The amount of work compared to Primary School is quite a bit more but you get used to it really quickly.

Poppy 7 Story

You don't get a lot of homework at the beginning of the year but you do end up getting more by the end of the year.

Aoife 7 Burrows

Don't worry, it only takes about 20 minutes per piece. You get about 3 pieces of homework a day.

Isabelle 7 Otter

It is quite a considerably big difference to Primary School but there is no need to worry as long as you have a routine and you are organised. But there is definitely a lot more than there is a Primary School.

Holly 7 Otter

The amount of homework was ok. I did struggle at first but once I got used to it I was ok. Compared to junior school there is quite a bit more homework but I wouldn't worry about that.

Olivia 7 Sherborne
