

Was it easy to make new friends?

My first day was really good and it definitely scary at first but it got easier as the day went on.

Yes there are always lovely people around so that is something everyone worries about I think but, seriously you really don't need to worry!!

It was quite easy to make friends if you just be yourself even though you might be nervous.

BEST FRIENDS

It was really easy to make friends because everyone is so nice and you make friends with your class quickly.

I was the only one from my junior school to start at Bishop Luffa, all my junior school friends carried onto the senior school, so yes I was very worried. But I made all my best friends now within the first 3 days and now really happy at Bishop Luffa.
