

## Year 12 Economics Curriculum Map

<b>Overview</b>	The Year 12 course focuses on an introduction to core Economic concepts, with Theme 1 considering an introduction to the course, and then investigating microeconomics. This introduces many of the key economic theories. Theme 2 shifts the focus onto macroeconomics, with a focus on the UK economy, and asks the students to reflect on macroeconomic objectives, conflicts and trade-offs. Students will develop skills of analysis and evaluation across both themes. They will develop data handling skills, as well as the ability to produce extended writing within Economics.
