- Science homework to be added by class teacher - twice each week (one per teacher for split classes, twice for single classes)
- Maths homework will be set online every Wednesday with one week to complete all tasks. Maths homework is the equivalent to three homework's, and can be completed in one or multiple sessions. The day's when students would have maths lessons have been indicated with *.
- Students in Y9 will also have a maximum of 2 hours of Technology homework per week. The frequency and quantity of homework will depend on the nature of the classwork undertaken.
- One or two homeworks will be set for Art each half term. They are likely to be research tasks aimed at broadening your knowledge of the theme you are working on or developing ideas to help your own, independent work develop. You should usually be prepared to spend between 40 and 60 minutes on an Art homework.
- Computer Science is likely to be set every two weeks, depending upon the requirements of the module being studied. It may be a specific task or research and the time allocated increases through the Key Stage from 30 to 50 minutes.
- One homework will be set for Drama each half term. This may involve a research task to widen your knowledge of a particular topic, written evaluations of practical work or planning and script writing in preparation for your next lesson. At certain points in the year line learning and extra rehearsals may be required in addition to these key homeworks.
- Music homework is likely to be set every two weeks depending upon the topics being studied in class. You should spend between 30 to 40 minutes on this. You are also encouraged to practice any instruments you play and attend school instrumental groups and choirs set up for your instrument or voice.
