

## **Sixth Form Bridging Work - Compulsory**

Completing the Research Detectives task will set you up with the skill set required across all subjects.

In both the Main School Library and the Sixth Form Library, you can count on two dedicated Librarians ready to support you with

- research strategies
- resource selection (print, digital, and online databases)
- technical troubleshooting on our PCs, printers, other school equipment and software.

We're committed to creating a welcoming, academically focused space where every student feels welcome to ask questions and develop independent study skills.

To preserve that atmosphere, we ask that you follow these rules and guidelines to help the libraries remain productive hubs for everyone.

- Observe a silent study policy in the School Libraries:
- Keep all food outside both spaces
- Use only lidded drinks.
- Mobile phones should remain on silent while working in the Sixth Form Library and kept out of sight in the Main School Library.
- Please handle books and equipment with care
- Respect fellow learners
- Follow borrowing and IT guidelines.
